

Starting with e-Learning

An invitation to all staff

Project Descriptions

1: short projects

A short project will attract 10 hours of funding and would typically involve the utilization of a software package to enhance a specific aspect of your course delivery.

2: medium projects

A medium project will attract 20 hours of funding and would typically involve the use of a blended mix of software and possibly hardware solutions as part of your course delivery

3: long projects

A short project will attract 30 hours of funding and would typically involve the transition from the traditional face to face delivery and assessment of course materials to an on-line mode for a particular aspect of normal learning requirements

Would you like to include e-Learning as part of your course delivery?

If the answer to this question is yes, but you are not sure where to begin, then why not take advantage of our funded project opportunities.

We are offering full advice; support and guidance for all staff who would like to make use of e-Learning in the leveraging of engagement and outcomes.

Interested, then please contact
